

Career & Technical (CTE) Course Offerings

6th Grade CTE Course

Career Discovery

The goal of this course is to help students build career awareness and engage in exploration and study of all the CTE career clusters, such as Health Science, Engineering, Arts, A/V Technology, and Information Tech. (9670.R0000.X)

7th Grade CTE Courses

Career & College Exploration

This course is designed to guide students through the process of investigating and developing a college and career readiness flight plan. (8050.R000.Y)

Principles of Arts, A/V Technology & Communications

This course is designed to develop knowledge and skills related to information management, presentation, animation, video technology, printing and desktop publishing. (8500.RJ000.Y)

Lifetime Nutrition & Wellness

This course is designed to be a laboratory course that allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness. (8703.RJ000.X)

7th and/or 8th Grade CTE Courses

Professional Communications

This course is designed to apply software applications, manipulate computer graphics, and be creative in a computer and technology based environment (8502.RJ000.X)

Principles of Applied Engineering

This course is designed to allow students to be introduced to key concepts and skills in engineering design. (8716.RJ000.Y)

8th Grade CTE Courses

Digital Communications in the 21st Century

This course is designed to prepare students for the societal demands of increased civic literacy, independent working environments, global awareness, and the mastery of a base set of analysis and communication skills. (7009.RJ000.Y)

Digital Media

This course is designed to help students analyze and assess current and emerging technologies, while designing and creating multimedia projects. (8807.RJ000.Y)

Robotics I

This course is designed to allow students to work in a project-based environment through implementation of the design process. Students will build prototypes or use simulation software to test their designs. (8715.RJ000.Y)
